

FISCAL NOTE

HB 2787 - SB 3046

March 5, 2006

SUMMARY OF BILL: Requires the Division of Regulatory Boards to conduct a study of states and countries that allow regulated health professionals to use alternative medical therapy to treat arteriosclerosis or heart disease. A written report shall be submitted to the General Assembly and the Governor by January 1, 2008.

ESTIMATED FISCAL IMPACT:

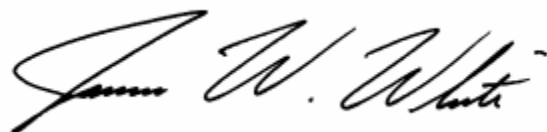

Increase State Expenditures - \$100,000 One-Time

Assumption:

- The Division of Regulatory Boards under the Department of Commerce and Insurance will be required to conduct a comparative study on a matter about which the Department does not have expertise. It is estimated that the Department would contract the study to an outside agency which is estimated to increase one-time state expenditures by \$100,000.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, appearing to read "James W. White". The signature is fluid and cursive, with the first name "James" written in a smaller, more compact script than the last name "White".

James W. White, Executive Director
